*Work:* +1-860-486-2590  
*Cell:* +1-412-443-6447  
*Web:* [bryanwweber.com](http://bryanwweber.com)

## RESEARCH INTERESTS

My research interests lie in developing tools to apply fundamental combustion insights to solve engineering problems. My recent work involves developing experimental methods to analyze intermediate species at practical combustion conditions. I am also interested in developing methods to analyze computational models, particularly kinetic models of combustion.

## EDUCATION

Ph.D., Mechanical Engineering, University of Connecticut, 2014  
M.S., Mechanical Engineering, University of Connecticut, 2010  
B.S.E., Aerospace Engineering, Case Western Reserve University, 2009

## PROFESSIONAL EXPERIENCE

Visiting Assistant Professor, University of Connecticut 2014–Present  
Conducting research on the combustion kinetics of alternative and traditional fuels.  
Teaching undergraduate courses in thermal-fluids engineering.  
Mentoring undergraduate students in the capstone design project.

Graduate Research Assistant, University of Connecticut 2009–2014  
Undergraduate Research Assistant, Case Western Reserve University 2007–2009

[Combustion Diagnostics Laboratory](#) — Director: C.-J. Sung

Conducted experimental and computational studies of the ignition properties of several alternative fuels and foundational fuels, with a focus on engine-relevant conditions.

Designed a species sampling apparatus for time-resolved species measurements in the rapid compression machine, using gas chromatography/mass spectrometry to identify and quantify combustion intermediates.

Analyzed kinetic models of combustion to determine the parameters controlling prediction of ignition delay and to improve the ability of the models to predict combustion events.

OTHER  
PRESENTATIONS

- [1] **B.W. Weber** and C.J. Sung. *Analysis of Hydrocarbon Fuels using Gas Chromatography/Mass Spectrometry*. Summer Undergraduate Research in Energy Sciences Program, Dominion Energy East Ohio Branch, Cleveland, OH, Aug. 2008.

TEACHING  
EXPERIENCE

**University of Connecticut, Storrs, CT, USA**

Fall 2014, Spring 2015 — Thermodynamic Principles  
 Fall 2014, Spring 2015 — Senior Capstone Design Project Mentor  
 Spring 2013 — Introduction to Mechanical Engineering (Instructor)

PROFESSIONAL  
SERVICE

Combustion Energy Frontier Research Center (CEFRC) 2012–2014  
 Lead Chair, Junior Associates Committee

Coordinate monthly teleconferences for graduate students and post-doctoral researchers in the CEFRC where junior members of the CEFRC present recent research results to the group.

Act as the liaison between the Center's principal investigators and the junior members.

U.S. Department of Energy 2013–2014  
 Member, EFRC Newsletter Editorial Board

Contribute articles to the Energy Frontier Research Centers (EFRC) newsletter describing recent scientific advances resulting from EFRC research, including:

“Burning Butanol in a Better Engine”

“The Advantage of Renewable Fuels in High-Efficiency Engines”

“Confined Catalysts Last Longer”

Edit articles written by other board members for factual and grammatical correctness.

Journal Referee

Energy & Fuels  
Proceedings of the Combustion Institute  
Combustion Science & Technology  
Industrial & Engineering Chemistry Research  
Society of Automotive Engineers World Congress

AWARDS AND  
FELLOWSHIPS

Doctoral Dissertation Fellowship, University of Connecticut, 2014  
Graduate Predoctoral Fellowship, Department of Mechanical Engineering, 2013  
Graduate Teaching Fellowship, Department of Mechanical Engineering, 2013  
Graduate Assistantship in Areas of National Need, University of Connecticut, 2010  
Fred H. Vose Prize, Department of Mechanical and Aerospace Engineering, 2009  
Summer Undergraduate Research in Energy Sciences Grant, Case Western Reserve University, 2008
